

6 Vehicle Fueling

Adopted: 17 March 2019
Reviewed:

Effective: 02 April 2019

6.1 Purpose and Expected Results

Squad vehicles should be ready for extended service at all times. Sufficient fuel for extended service is at least half of the vehicle's fuel capacity.

6.2 Circumstances of Applicability

A squad vehicle's fuel gauge indicates less than half full.

6.3 Requisites

Fuel access key or card.

6.4 Procedure Description

Upon returning to service, the vehicle driver is to:

1. Fill the fuel tank or tanks with the appropriate fuel
2. By vehicle identifier, record the amount of fuel used, which may be by automated means.
